ESD CLEANROOM CHAIR

M73E-005

This is ESD Cleanroom Chair that is used for antistatic and particle-control purpose in cleanroom or any controlled environment.

CLEANROOM-SUITABLE MATERIALS

Polyurethane Foam

- No particle issue that occurs in synthetic leather, fabrics, etc.
- Polyurethane foam offers great overall durability.
- Remarkably comfortable due to wider seat and backrest.

Metal Castor & Metal Chain

- Metal castor offers semi-permanent level of durability
- The metal chain reinforces the grounding
